

Hackathon · 2026

PROJECT · ONE-PAGER

Custom page for VCs

Goal: spark curiosity through personalized content with the goal of wanting to see more — only sending companies not already in their portfolio.

EVALUATION CRITERIA

Usefulness

✓ YES

Saves the sales team manual research time and sparks curiosity in the VC prospect — every page is a unique conversation starter.

Working demo

✓ YES

Live Flask app generating bespoke Company & LP recommendation pages end-to-end from a single VC name or URL input.

Learning leap

✓ LOADS

Learned a lot — working with API connectors, fixing bugs across the stack, prompt design for GPT-driven thesis extraction, and navigating the next-gen Dealroom API.

Dealroom API

Flask

GPT-4o

Python
